Bangalore, Karnataka

2021

WORK EXPERIENCE

FiniteLoop

Creative Intern

Bangalore, Karnataka

Feb 2025 - Present

- Authored technical and creative blogs to improve user engagement
- Contributed to content strategy and technical communication initiatives
- Produced structured documentation for digital platforms

PROJECTS

Legal Contract Analysis System (Academic Project)

Feb 2026

- Developed an NLP-based system using Legal-BERT to analyze legal contracts
- Extracted key clauses and insights to assist in document understanding

PDF Intelligence System using RAG

Aug 2025

- Built a Retrieval-Augmented Generation (RAG) system to query PDF documents using local LLMs
- Implemented document parsing with PyMuPDF, embedding with Sentence Transformers, and vector search using FAISS
- Integrated lightweight local models (Phi-3, Qwen) via Ollama for fully offline inference (no API dependency)

AI Mental Wellness Chatbot (Hackathon Project – Aventus 3.0)

May 2025

- Built an AI-powered chatbot using Python and GROQ API for mental health support
- Implemented sentiment-based responses and culturally relevant coping suggestions
- Designed user-focused interface to improve accessibility and engagement

TECHNICAL SKILLS

Languages: Python, C, C++, JavaScript

Web & App Development: HTML, CSS, React, Flask, Django, Gradio

Databases: MySQL, MongoDB

Tools, Technologies & Environments: GitHub, Figma, Pygame, VS Code, Colab, Linux

ADDITIONAL SKILLS

- Technical content creation and blog writing on [Medium](https://medium.com) and [Substack](https://substack.com)
- Documentation development and structured content design for digital platforms

CERTIFICATIONS

- NPTEL Certified – Artificial Intelligence: Concepts and Techniques (Nov 2025)
- Elements of AI – University of Helsinki & MinnaLearn (Nov 2022)
